

The LundBioAccelerator

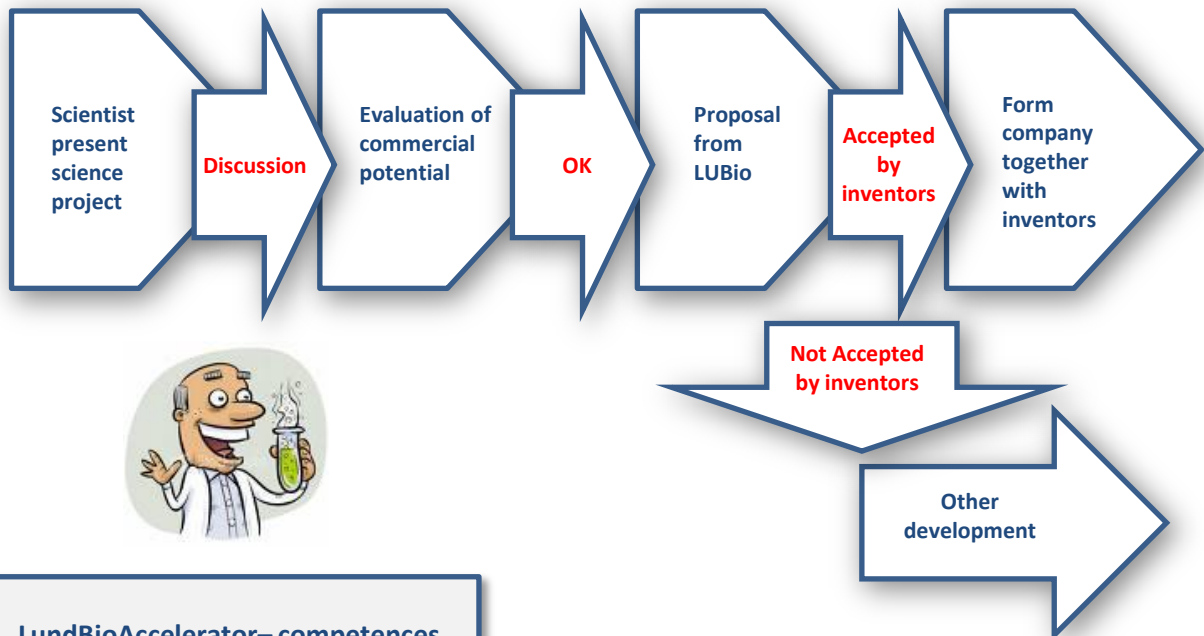

Developing research results - a Lund University initiative

LUNDBIOACCELERATOR

LundBioAccelerator is a collaboration between the tech transfer office at Lund University (LUIIS) and the life science investment company Lund University Bioscience AB (LUBio). LundBioAccelerator enables a fast and efficient development of life science innovations. We provide both capital and industrial development expertise. The LundBioAccelerator has a commercial focus and the goal is to develop innovations to create value growth for the inventors, Lund University, the investors and society.

The LundBioAccelerator evaluation process

LundBioAccelerator – competences
